SOUNDAROUND Amplifier

In-Wall Wi-Fi SOUNDAROUND Control Unit

12,5 x 21,5 x 6,5 cm. 0,350 Kg.

Compatible with Amazon Alexa y Google Home

The In-Wall Wi-Fi SOUNDAROUND System will provide a Multiuser - Multiroom Audio solution, powered by QUALCOMM technology.

Device with 3 audio sources: WIFI streaming, BLUETOOTH streaming and AUDIO-IN. Each In-Wall Audio Control unit has a UNIQUE identifier to be able to distinguish between them when several units are connected to the same network. This ID can be customized by the user. The Control unit also has an ETHERNET connector for hardwired installations. BLUETOOTH: A2DP/AVRCP profiles supported to receive audio streaming. Same UNIQUE identifier is also used as a BLUETOOTH identifier.

AUDIO-IN: 3,5mm jack audio input to connect any external audio source.

POWER-IN: input for external power supply, 24Vdc/15Vdc/12Vdc allowed.

SPEAKER OUTPUT: terminals for right and left speakers connections. 8 ohms speakers permitted. Audio power output up to 25+25W.

Ref.	Color	Euros

60W Power Supply. 120/230Vac, 15Vdc.

Recommended for installations of SOUNDAROUND Controller to up to four 8ohm speakers and up to eight 16ohm speakers.
Max audio output 16+16W.

11396 - 49,00

Features

Control:

iOS
Download the App "DStream"

iOS devices:
In the Apple App Store search for "dstream" and download the App.

Android
Download the App "DStream"

Android devices:
In Google Play Store download the App "DStream".

App Support: iOS / Android
Audio Sources: Music on the device, Music services (network), Internet music services (Spotify Premium, Napster...) and auxiliary input.
Multiroom up to 10 zones.

RECOMMENDATIONS:

- A wired installation offers the best immunity against noise and gives the system the best performance.
- It is necessary to have good bandwidth and WI-FI coverage in all rooms from where you want to control the system.
- It is recommended to install a maximum of 10 devices in the installation.
- Recommendations for the router: 5GHz and 1200Mbps
- It is highly recommended to install an exclusive router for the sound system.
