

## Spacing isolator Type DB/P

**Made of Polyglas-polyester material, reinforced with fiberglass, colour red, self-extinguishing.**

The isolators of type DB are unbreakable and have excellent electrical and mechanical characteristics and can be used under extreme working conditions such as high room temperatures, also when in contact with corrosive substances, vibrations, etc.

The hexagon, arranged middle layer with two facing sides, facilitates the connection and locking in place the isolator.

Upon request, the isolators can be supplied as follows:

- The isolator can be equipped with a thread which is not standard
- The isolator can be supplied with one or two threaded bolts „GB“

Operating temperature: -40 °C up to +130 °C

Fire resistance class: UL94-V0
